

Self Watering Systems

The Mona Self-Watering Tank System

Save water

Prevents overwatering and evaporation.

Easy care

Keep your plants happy while you're away, with watering usually only required every 3-6 weeks.

Bigger, stronger, healthier plants

The reservoir air space oxygenates roots for better health, while direct root watering promotes rapid growth.

Less mess, less stress

Prevent water stains and messy runoff on tiles, decking, roof terraces and balconies.

Fertiliser friendly

Fertilisers are confined within the container, meaning you'll use less of it, and get more out of it.

How it works

- Fill the reservoir by pouring water through the black downpipe that sits just above soil level (use your plants to hide it discreetly if you like)
- Water and oxygen are drawn upwards from the reservoir into the soil around the roots as needed (over time, the roots will grow into the reservoir)
- A float in the downpipe lets you know when it's time to refill

Easy Installation Instructions

1. Check the height of the Mona reservoir against the planter. Plants root system need to be no more than 15cm above the reservoir.
2. Add potting mix (or a filler such as blue metal or expanded clay) to elevate the Mona reservoir to the correct height. Make sure it's stable and level.
3. Add peat moss to the centre cone (easier if you remove it first), ensuring you gently compress to remove any air pockets. Then place it firmly back into place. Add a layer of peat moss on top of the Mona reservoir.
4. Place the plant with the roots above the system and backfill with potting mix. You may need to push the down pipe to one side, be careful not to kink it.

Available sizes

Round	Dimensions	Filler Pipe Height	Water Holding	Price
Mona Tank 1	150 x 65mm H	210mm	1L	\$10.00
Mona Tank 2	210 x 65mm H	335mm	2L	\$27.50
Mona Tank 4	240 x 100mm H	460mm	4L	\$48.50
Mona Tank 6	240 x 150mm H	590mm	6L	\$63.50
Mona Tank 10	390 x 100mm H	590mm	10L	\$88.50

Rectangular	Dimensions	Filler Pipe Height	Water Holding	Price
Mona Tank 3	630 L x 130 W x 65mm H	335mm	3L	\$93.50
Mona Tank 7	550 L x 150 W x 100mm H	590mm	7L	\$124.50
Mona Tank 24	900 L x 200 W x 150mm H	590mm	24L	\$199.50

The rectangular tanks can be linked together to suit longer planters.

Square	Dimensions	Filler Pipe Height	Water Holding	Price
Mona Tank 25	420 L x 420 W 210mm H	590mm	25L	\$235.00
